

Outdoor Classrooms: 6m Octagonal Gazebo with Decked Base

An octagonal gazebo comprising a bitumen shingle covered, timber roof, supported off hefty 6" round posts with seven benches and seven sides of picket fencing, all sitting on a decked base. It's the perfect way to take a whopping 50 children outside in a sheltered, outdoor learning environment, and it can be freely positioned in an agreed location to meet your schools' needs. The gazebo's waterproof roof construction means that even on a rainy day your children will stay dry and focused during outdoor lesson times, while the decked base means there'll be no muddy or wet feet coming back into the classroom!

Technical Details:

- Size (Dia. x H): Ø6473mm x 3785mm
- Seating capacity: 50
- High pressure treated structural grade timber
- High pressure treated 'play grade' timber
- Exterior grade plywood
- Bitumen roof shingles
