

Active Play:

Climb Through Tunnel Hill

A rounded top artificial grass hill with a tunnel running through chunky timber sides, stepped for your children to step up, offering multiple play opportunities. Children can climb, step, crawl or roll across the foam cushioned hill while other young adventurers scramble through the tunnel.

It can also be used as a lookout to view across the playground or for 'positional language' play. This will challenge your children's sense of adventure, strength and physical coordination and is perfect for physical development and imaginative play.

*Surfacing may not be required if there is an existing impact absorbing surface (such as grass).

Technical Details:

- Size (L x W x H): 3230mm x 1708mm x 750mm
- Critical fall height: <0.75M
- Tunnel diameter Ø600m ID
- Overall size including fall space: 6230mm x 4708mm
- Minimum safety surfacing required*: 12M²
- High pressure treated 'play grade' timber sides
- Twin-wall HDPE plastic tunnel
- Playturf artificial grass with foam cushioning underlayer
