

User Guide

- Small Self-Selecting Store

We want you to get the most out of your new playground equipment. We've compiled a few, simple notes to help proper use and maintenance of the equipment. As with all playground equipment, your own risk assessment is required as part of your school processes. Here are the key points:

- This item must be used under teacher supervision only, please make sure doors are securely fastened when in an open position. Doors can make large movements in windy conditions if unsecure.
- The boxes are small and light enough to be freely accessed by your children to self-select their own equipment, and return it when finished.
- Visually inspect your product, making sure no timbers are splitting and no fixings are loose and in accordance with your Pentagon Maintenance Manual.

For more detailed maintenance information please refer to you Pentagon Maintenance Manual
