

User Guide - Storage Bench

We want you to get the most out of your new playground equipment. We've compiled a few, simple notes to help proper use and maintenance of the equipment. As with all playground equipment, your own risk assessment is required as part of your school processes. Here are the key points:

- The boxes can be secured by padlocking the ply panel to the front dowels. When in use, remove the ply panel from the front, and padlock the panel to the dowels on the rear of the backrest.
- Do not use abrasive liquids to clean the wooden, metal or plastic surfaces.
- Visually inspect your product, making sure no timbers are splitting and no fixings are loose and in accordance with your Pentagon Maintenance Manual.

For more detailed maintenance information please refer to your Pentagon Maintenance Manual
