

User Guide - Potting Table

We want you to get the most out of your new playground equipment. We've compiled a few, simple notes to help proper use and maintenance of the equipment. As with all playground equipment, your own risk assessment is required as part of your school processes. Here are the key points:

- Stainless steel containers will not rust, and can be used to contain water or soil
- Don't use abrasive liquids to clean the wooden or metal surfaces, use water and a brush
- Visually inspect your product, making sure no timbers are splitting and no fixings are loose and in accordance with your Pentagon Maintenance Manual.

For more detailed maintenance information please refer to your Pentagon Maintenance Manual
