

## Active Play: Triangular Net Landscape

The Triangular Net Landscape is designed to encourage children to think logically and to enjoy problem-solving - all good practice as they learn how to navigate some of the challenges that life presents.

Supporting whole-body physical development, it's based on a fun Parkour concept - using movement that developed from military obstacle course training.

Can the children find their way from one point of this combined timber pole, beam and net landscape to another in the fastest, the most efficient, or perhaps the most creative and interesting way possible?

They can step, climb, run, jump, roll, scramble and try using quadrupedal movement, or a combination of movements, to achieve their goal.

### Technical Details:

- Size (L x W x H): 2930mm x 1830mm x 2600mm
- Critical fall height: <0.6M
- Overall size including fall space: 5930mm x 4830mm
- Minimum area required\*: 20M<sup>2</sup>
- High pressure treated 'play grade' timber
- Steel reinforced ropes
